

LEAN AND SIX-SIGMA GREEN BELT COURSE

Meeting Times: Tuesdays & Thursdays, 5:30-9:30 pm

Dates: September 7 - October 10
(5 weeks, 40 total contact hours)

Cost: \$1,749 per participant

COURSE OBJECTIVES

- Design and develop Six Sigma projects
- Determine process capability
- Employ the DMAIC process (Define, Measure, Analyze, Improve, Control)
- Perform basic statistical analysis on process measurements
- Prepare root cause analysis
- Support and champion Six Sigma implementation in your organization
- Explain the Six Sigma philosophy

Participants have the option to take the Green Belt Certification test through ASQ™. *

*The exam is included in the course fee. Participants must complete an application for certification testing. Criteria includes three years of work experience relating to one or more areas of the Green Belt Body of Knowledge.
