### Library Resources for Online Classes

Online classes are an important and fast-growing part of our educational system here at CGTC. The Library is committed to supporting off-campus students. A few of the services that we offer online are:

#### Program- or Course-Specific Resource Lists

Resource Lists assist instructors and students by giving selected examples of the materials the Library owns or has access to that support a particular program or course. We have many already available and will be more than happy to develop the ones you need.

#### GALILEO Password

The password that allows access to our GALILEO database collection changes every quarter. Getting this password into the hands of off-campus students early on can help them get a jump on their assignments. In Blackboard, you can integrate this password into your syllabus each quarter or post it in the "Announcements" area.

#### **The Library has more than just books and magazines!**

- GALILEO contains around 135 databases covering an astonishing variety of subjects.
- Over 35,000 electronic books in NetLibrary. Available from any Internet-connected computer!
- Schedule a consultation with us to explore the resources that are best for you.

## Quick Links

We can also provide you with Quick Links to specific GALILEO databases, if you like. These links provide quick and easy access to subject-specific databases in GALILEO and can help relieve stress and confusion. Just e-mail, call, or come by and discuss with us which links you want.

## NetLibrary

Don't forget about the electronic books available through NetLibrary. This extensive collection of up-to-date books is available 24x7 through the Internet. Off-campus students have full access to this collection through GALILEO.

## E-mail or Telephone Reference

We are always glad to take questions by e-mail or phone any time the Library is open. When you need answers in a hurry, give us a call.

# WELCOME !!!

Please extend a warm welcome to the latest member of our Library Staff. Candice Patterson comes to us from Emory University, where she worked as a Student Assistant in the Library for four years. Once again, we are fortunate to have found such a talented and capable Evening Library Technical Assistant for the Macon Campus Library.

The CGTC Library Staff are ready to assist you with all your informational needs. Please feel free to come by, phone, or e-mail ([library@centralgatech.edu](mailto:library@centralgatech.edu)) us with your questions and requests.
