

OSHA 10 Hour for General Industry

This OSHA 10 hour General Industry course is delivered over two days by an OSHA Authorized Trainer.

This class provides an overview of the Occupational Safety and Health Administration and covers many of the 29 CFR 1910 OSHA General Industry Regulations. The training emphasizes hazard identification, avoidance, control, and prevention. The training also covers a variety of general industry safety and health hazards which a worker may encounter. This is a great class to cultivate a safety mindset among your workforce.

Everyone who works in general industry should attend. This includes entry level to seasoned, veteran workers in Manufacturing, Warehousing, and Distribution.
