

Health Science Programs Competitive Selection

Spring 2024, Summer 2024, and Fall 2024 Semesters

Valid from June 2, 2023 - June 1, 2024

Thank you for your interest in the competitive Health Sciences programs at Central Georgia Technical College (CGTC). The information contained in this brochure is applicable to competitive selection health programs at all CGTC locations. This information has been provided in good faith and is up-to-date as of the print date listed below. If the information contained in this booklet is in direct conflict with prescribed Technical College System of Georgia (TCSG) admissions policies and procedures or with TCSG curriculum standards, the TCSG guidelines will prevail.

For information about the competitive selection process, please contact the Health Sciences Office at healthselection@centralgatech.edu or call **(478) 757-2506**. If you have specific questions about courses, program outcomes, or need advisement, please contact the CGTC instructor listed as the advisor for your intended program on the *Selection Requirements* section of this booklet.

Unlawful Harassment and Non-Discriminatory Policy and Procedure

As set forth in its student catalog, Central Georgia Technical College does not discriminate on the basis of race, color, creed, national or ethnic origin, sex, religion, disability, age, political affiliation or belief, genetic information, disabled veteran, veteran of the Vietnam Era, spouse of military member, or citizenship status (except in those special circumstances permitted or mandated by law). CGTC shall promote the realization of equal opportunity through a positive continuing program of specific practices designed to ensure the full realization of equal opportunity. The following person has been designated to handle inquiries regarding the non-discrimination policies: The Title VI/Title IX/Section 504/ADA Coordinator for CGTC non-discrimination policies is Cathy Johnson, Executive Director of Conduct, Appeals & Compliance; Room A-136, 80 Cohen Walker Drive, Warner Robins, GA 31088; Phone: (478) 218-3309; Fax: (478) 471-5197; Email: cjohnson@centralgatech.edu.

Competitive Health Science Programs

Admissions and Selection Process

Admission to Central Georgia Technical College and the competitive selection process are two distinct processes; students are responsible for understanding both. This document provides step-by-step directions for both college admission and competitive selection.

Please read this entire document carefully.

COLLEGE ADMISSIONS PROCESS

To be accepted into the College and qualify for selection, students must complete all CGTC **admissions requirements***:

- ☐ Submit a complete *Application for Admission*
- ☐ Provide a copy of a current driver's license or other acceptable documentation to verify age and residency to determine tuition rates
- ☐ Pay the non-refundable college admission application fee
- ☐ Request an official high school transcript or an official transcript of GED® test scores (*transfer students may not need to submit high school/GED transcripts; see an admissions associate for information*)
- ☐ Request an official transcript(s) from all colleges attended (*if you would like to request transfer credit*)

Acceptance into the college does not guarantee selection into a desired health science program. The **competitive selection process** is a separate process that must be completed to gain entry into the student's program or cohort.

**For complete information about CGTC's Admissions requirements, please visit <https://www.centralgatech.edu/admissions-financial-aid>.*

COMPETITIVE SELECTION PROCESS

All steps below must be completed before the competitive selection deadline published for each program. Current dates are listed on the **Important Dates, Deadlines, and Information** section of this booklet. To be considered for selection for a seat in a competitive health science program, a student must:

- ☐ **Successfully complete all required courses for selection** (see the *Selection Requirements* section in this booklet for information specific to each program).
- ☐ **Take the required entrance test for the program**, *Test of Essential Academic Skills (TEAS)*.
- ☐ **Submit a Competitive Health Selection form** (the form is available online in the forms section of the **Student Portal**; go to <https://portal.centralgatech.edu>, click **Competitive Health Selection**, complete the form, and click the **Submit Application** button once). A confirmation will be sent to your student email address. If you do not have access to the Student Portal, you must request a paper version of the form in the Admissions Office or by emailing healthselection@centralgatech.edu.

Once selections are made, all applicants will be notified through the email account provided on the Competitive Health Selection form of their acceptance or denial for admission into a competitive program (see the *Important Dates, Deadlines, and Information* section of this booklet). When notified, students will have 24 hours to respond via email to the offer for selection.

Questions?

For questions about the admissions process for CGTC, please contact the Admissions Office at (478) 988-6800 or admissionsoffice@centralgatech.edu.

For questions about the competitive selections process, please contact the appropriate program advisor (contact information for each program is available in the *Selection Requirements* section). You can also contact the Health Sciences Office at healthselection@centralgatech.edu or call (478) 757-2506.

The Competitive Selection Process

Space for each program cohort is limited by the number of available clinical slots and/or the requirements of the program accrediting agency. Therefore, the number of students accepted for each program can vary by semester. Only students who meet the minimum eligibility requirements as outlined in this booklet will be considered for selection. Competitive health selection trend data, including the average number of students selected to each program, highest and lowest test scores and GPAs, and highest and lowest total selection scores for past cohorts is available online at www.centralgatech.edu (click **Admissions & Financial Aid**, click **Competitive Selection**, then click **Health Science Programs Competitive Selections Score Trends**).

Selection Period

To determine when the selection process will take place for each program, refer to the *Important Dates, Deadlines, and Information* page.

Age

Each program has a minimum age requirement (refer to the minimum age column in the *Selection Requirements* section of this booklet). The student can be admitted to the college, take core classes, and participate in the selection process prior to meeting the age requirement. However, the student must meet the minimum age no later than the first day of the first semester when the selected program cohort begins.

Courses Evaluated for Selection

Each program has required classes that must be completed in order for a student to compete for selection (refer to the *Selection Requirements* section). Courses may be in progress at the selection deadline for students enrolled at CGTC, but must be successfully completed at the end of the semester.

For students who want transfer credit considered, all final official transcripts must be received by the selection deadline. Courses from one institution that are listed on another institution's transcript as transfer credit are not eligible for consideration. In order to consider those courses, an official transcript from that institution must be received by the selection deadline. Selection courses must be completed with a grade of C or higher to be considered for a competitive health selection program. Courses from one institution that are listed on another institution's transcript as transfer credit are not eligible for consideration. In order to consider those courses, an official transcript from that institution must be received by the selection deadline. Courses for selection must be completed with a grade of C or higher to be considered for a competitive health selection program. (Official transcripts must be sent directly from the college attended).

Only the *Courses Evaluated for Selection* listed for each program (refer to the *Selection Requirements* section) will be calculated in the selection grade point average (GPA).

Other courses taken will not be calculated in the selection GPA. All programs require courses beyond those calculated for selection. For full program curriculum requirements, please refer to the CGTC catalog online at www.centralgatech.edu/catalog.

Course Substitutions:

Students requesting course substitutions must submit an academic appeal on or before the competitive selection deadline. The academic appeal form can be found on the college website at: www.centralgatech.edu/academics. For questions regarding course substitutions, please call (478) 757-2506 or email healthselecton@centralgatech.edu.

Minimum requirements for Courses Evaluated for Selection:

Expiration of Grades:*

- General education core courses, such as English and psychology, do not expire.
- Math and science courses evaluated for selection (refer to the *Selection Requirements* section) expire after five years. If the last attempt is outside the five-year period, the student must re-take the course(s) to be eligible for selection. (For Example: MATH 11XX taken any time in 2020 will expire December 31, 2025).

+ Expiration of grades applies ONLY to the courses evaluated for selection (refer to the *Selections Requirements* section). Graduation requirements may be different; see your advisor regarding expiration of other courses.

Multiple Attempts:

- Multiple attempts at a course can affect financial aid; students should contact the Financial Aid office before re-taking a course.
- For courses that expire, an average of the two most recent attempts for each course for selection within five years will be used to calculate the selection GPA. Failing grades may be used towards calculation.
- For courses (English and Psychology) that do not expire, the average grade of the two highest attempts will be calculated. Failing grades may be used towards calculation.

Transfer Credit:

- For courses completed at an institution other than CGTC, transcripts will be evaluated and grades from applicable coursework will be calculated in the

selection GPA in accordance with the criteria in this booklet.

- All official transcripts must be received by the Registrar's Office by the published competitive selection deadline for each program in order to be considered eligible for selection (refer to the *Important Dates, Deadlines, and Information* section).

Entrance Test for Selection

Students competing for selection must complete the **Test of Essential Academic Skills (TEAS)** requirement by the established selection deadline. Please refer to the *Important Dates, Deadlines, and Information* section of this booklet for detailed information.

The TEAS can be taken at the CGTC Testing Center on any campus with picture ID. Seat availability may be limited for dates closer to the competitive selection deadline; please plan accordingly. For information on registering for the TEAS, please go to <https://www.centralgatech.edu/testingcenter>. The student may choose to take the TEAS at another testing site. Transfer of TEAS scores from other testing sites is not automatic. Any student who takes the TEAS at a testing center other than CGTC, must request their scores be sent to CGTC.

Selection test requirements for health programs:

- The highest TEAS score (Version 7) within the published competitive selection period (June 2, 2023 – June 1, 2024) will be used for selection. The test must be taken on or before the deadline of the published competitive selection submission period for each program listed in the *Important Dates, Deadlines, and Information* section of this booklet in order to be considered for selection.
- Students who have taken the TEAS prior to the published selection period are not required to retake the test unless an updated version of the test has been released. The highest TEAS score for an exam taken prior to the selection period will be used.

Test of Essential Academic Skills (TEAS) Exam

- The TEAS exam requires a fee. For information related to testing fees, please check the CGTC website for the latest information.
- CGTC recommends that students complete BIOL 2113 prior to taking the TEAS exam.
- The TEAS can be taken at any time during the normal operating hours of the Testing Center (a complete schedule is available at www.centralgatech.edu/testingcenter).
- Students must request that their TEAS scores be sent to CGTC if the student takes the exam at a testing site other than CGTC.

Health Selection Forms

Students competing for selection must submit a **Competitive Health Selection form** by the published deadline.

- Current CGTC students must submit this form through the Student Portal (<https://portal.centralgatech.edu>). Once submitted, a confirmation email will be sent to the student's CGTC email address.
- Students who do not have access to the Student Portal must request a paper version of the *Competitive Health Selection form* via email at healthselection@centralgatech.edu or in person from the Admissions Office

A *Competitive Health Selection form* must be submitted for each program for which the student wishes to compete. If a student is not selected and would like to compete in the next selection cycle, the student must submit a new *Competitive Health Selection form* each time. It is the student's responsibility to ensure that all required course grades and time frames are still applicable.

Calculation Criteria

CGTC uses an objective, quantitative process to score all eligible candidates for selection into competitive health science programs. Selection into each program is based on a rank-order calculation where the student with the highest total score is selected first, and remaining seats are filled according to rank-order.

Upon successful completion of all requirements, students will be considered for selection based on the following criteria:

Formula

$$\frac{(\text{GPA of Selection Courses} \times 100) + \text{Highest TEAS Test Score}}{\text{Total Rank-Order Calculation Score}}$$

Tiebreaker

In the case of a tie in the rank-order calculation score, the student with the highest TEAS exam score average will be selected.

Notification of Selection

For associate degree programs, students will receive selection notification one semester prior to the cohort start semester (ex: if the cohort begins spring 2024, notifications will be sent before fall 2023). For diploma programs, notifications will be sent prior to the start date of the semester that the selected cohort begins (ex: if the cohort begins spring 2024, notifications will be sent after fall 2023).

Students who apply for selection will receive an email at their CGTC student email address* with more detailed information regarding notification before the selection process begins. Students should ensure that contact information is up-to-date each semester in Banner Self-Service (BannerWeb). **When notified, students will have 24 hours to respond to the offer for selection. Students must confirm acceptance of the seat in order to be added to the program.** If a student does not accept, the seat will be offered to the next student in the rank-order calculation.

Once selection is confirmed, students will receive further information regarding orientation and advisement for registration. Once a student begins their cohort, they will not be considered for any other competitive programs unless they are in their last semester prior to graduation.

*(*During the selection period, emails will be sent to CGTC student email accounts. Students should check this email account frequently and ensure that the email inbox is not full and the deleted items folder is emptied regularly. Refer to the Student Technology Guide at <https://www.centralgatech.edu/studenttech> for information on how to access your CGTC student email. Any student who completes the paper version of the Competitive Health Selection form will be notified at the email provided on the paper version of the Competitive Health Selection form.)*

Other Criteria

Students who are selected for CGTC's health programs must submit to a background check and a drug screen prior to enrollment in an occupational/clinical course. Students who re-enter a program must fulfill this requirement again upon re-entry to the program. A student who has been convicted of a felony or misdemeanor may be selected for a health sciences program; however, a conviction may prevent the student from being accepted into a clinical training site and/or taking certification/registry/licensure exams. Additionally, students who test positive for drugs or illegal/controlled substances may be precluded from clinical participation.

CGTC cannot guarantee licensure to any graduate, or the ability to participate in clinical rotations. Student eligibility for clinical participation is determined and subject to the rules and regulations of the partner clinical sites. If you are unsure about your ability to participate, please contact your program advisor. Students are expected to uphold professional and ethical standards at all times in accordance with CGTC's Code of Conduct. The full Code of Conduct can be accessed online in the academic catalog (www.centralgatech.edu/catalog).

Frequently Asked Questions

Q. How many programs can I compete for each semester?

A. You can compete for as many programs as you would like, as long as you have met the selection criteria for each program. You can also opt to compete for the same program at multiple campuses.

Q. How much should I expect to spend on books and supplies in my first semester?

A. Book costs vary by program; however, you should expect to spend the largest amount of money on books within the first semester. Often, books will be used for multiple classes throughout the duration of the program. Check with the program advisor for more specific information. Students should also be prepared for other out-of-pocket expenses including background check fees, uniforms, licensure testing, etc. A good faith estimate of costs associated with each program can be found on the *Selection Requirements* section in this booklet.

Q. How do I know which program may be best for me?

A. If you are unsure of exactly which health science program you would like to pursue, visit CGTC's Career Services Office, where career advisors can provide you information on areas that interest you and perform a career assessment that can help you decide. You can also speak with the various health program faculty advisors to help inform your decision or contact one of the CGTC Health Success Coaches: Anne Sartain (478) 218-3266 or Laura Stefan (478) 218-3758.

Selection Requirements

*All admissions requirements and competitive selection process requirements must be completed before the published date for each program. If the published deadline falls on a weekend, students are responsible for submitting all documentation, in person or electronically, by close of business on the preceding workday. If the published deadline falls mid-semester, **students currently enrolled at CGTC** and taking one or more courses evaluated for selection have until the end of that semester to complete those courses. Students requesting transfer credit must ensure that final transcripts have been received by the Office of the Registrar on or before the published competitive selection deadline for each Program.

Students requesting course substitutions must submit an academic appeal on or before the competitive selection deadline. The academic appeal form can be found on the college website at: www.centralgatech.edu/academics. For questions related to course substitutions, please call (488) 757-2506 or email your questions to healthselection@centralgatech.edu.

**Includes books, supplies, uniforms, testing fees, background check fees, and other associated out-of-pocket costs for the duration of the program.

ASN Bridge Program Competitive Selection Process

Students who intend to apply for selection to the Associate of Science in Nursing Bridge program option must meet the following criteria and submit the required documentation by the designated selection application deadline. Selection is granted on a space-available basis based on the criteria below.

The applicant must:

1. Be a graduate of an accredited diploma (LPN) program in Nursing or associate degree or diploma program in Paramedicine.
2. Submit a Competitive Selection Form by March 1, 2024 to be considered for the Summer 2024 ASN Nursing Bridge cohort. Current CGTC students must submit this form online through the Student Portal (<https://portal.centralgatech.edu>). Once submitted, a confirmation email will be sent to the student's CGTC email address. Students who do not have access to the Student Portal must request a paper version of the Competitive Health Selection Form from healthselection@centralgatech.edu or the Admissions Office.
3. Submit a copy of current license or certification to practice as a Licensed Practical Nurse (LPN) or Paramedic, obtained on or before February 28th, 2023. All applicants must hold an active, unencumbered and unrestricted license at the time they are admitted into the program, and must maintain that license until they receive their registered nursing license. Students must email a copy of their license to healthselection@centralgatech.edu.
4. Submit all official academic transcripts to include conferred LPN or Paramedicine award and all associate degree level pre-requisite courses. All required prerequisite core courses must be completed with a grade of "C" or higher.
5. Prerequisite core courses must meet CGTC course expiration date guidelines. See Catalog for expiration date guidelines and required prerequisite core courses for Associate of Science in Nursing (ASN) Bridge (AF93) at <https://www.centralgatech.edu/wp-content/uploads/pdfs/catalog/catalog.pdf>.
6. Submit TEAS scores. Must meet the minimum score requirement of 65. The highest TEAS score (Version 7) within the published competitive selection period (October 2, 2023-March 1, 2024) will be used for selection. The Test must be taken on or before March 1, 2024.
7. Calculation Criteria: CGTC uses an objective, quantitative process to score all eligible candidates for selection into competitive health science programs. Selection into the ASN Bridge program is based on a rank-order calculation in which the student with the highest total score is selected first, and remaining seats are filled according to rank-order.

Upon successful completion of all requirements, student will be considered for selection based on the following criteria: Highest TEAS Test Score. In the case of a tie in the rank-order calculation score, the student with the earlier date/time of selection form submission will be selected.

Incomplete/late applications will not be considered for selection. Completion of requirements below does not guarantee selection into the Associate of Science in Nursing Bridge program.
