

Health Science Programs Competitive Selection

Spring 2022, Summer 2022, and Fall 2022 Semesters

Valid from June 2, 2021 - June 1, 2022

Thank you for your interest in the competitive Health Sciences programs at Central Georgia Technical College. The information contained in this brochure is applicable to competitive selection health programs at all CGTC locations. This information has been provided in good faith and is up-to-date as of the print date listed on the inside front cover. If the information contained in this booklet is in direct conflict with prescribed Technical College System of Georgia (TCSG) admissions policies and procedures or with TCSG curriculum standards, the TCSG guidelines will prevail.

For information about the competitive selection process, please contact the Health Sciences Office at healthselection@centralgatech.edu or call (478) 757-2506. If you have specific questions about courses, program outcomes, or need advisement, please contact the CGTC instructor listed as the advisor for your intended program on the *Important Dates, Deadlines, and Information* section of this booklet.

Unlawful Harassment and Non-Discriminatory Policy and Procedure

As set forth in its student catalog, Central Georgia Technical College does not discriminate on the basis of race, color, creed, national or ethnic origin, sex, religion, disability, age, political affiliation or belief, genetic information, veteran status, or citizenship status (except in those special circumstances permitted or mandated by law). The following person has been designated to handle inquiries regarding the non-discrimination policies: The Title VI/ Title IX/Section 504/ADA Coordinator for CGTC non-discrimination policies is Cathy Johnson, Executive Director of Conduct, Appeals & Compliance; Room A-136, 80 Cohen Walker Drive, Warner Robins, GA 31088; Phone: (478) 218-3309; Fax: (478) 471-5197; Email: cajohnson@centralgatech.edu.

Competitive Health Science Programs

Admissions and Selection Process

Admission to Central Georgia Technical College and the competitive selection process are two distinct processes; students are responsible for understanding both. This document provides step-by-step directions for both college admission and competitive selection. **Please read this entire document carefully.**

COLLEGE ADMISSIONS PROCESS

To be accepted into the College and qualify for selection, students must complete all CGTC **admissions requirements***:

- ☐ Submit a complete *Application for Admission*
- ☐ Submit a signed *Student Agreement* form
- ☐ Provide a copy of a current driver's license or other acceptable documentation to verify age and residency to determine tuition rates
- ☐ Pay the non-refundable college admission application fee
- ☐ Request an official high school transcript or an official transcript of GED® test scores (*transfer students may not need to submit high school/GED transcripts; see an admissions associate for information*)
- ☐ Request an official transcript(s) from all colleges attended (if you would like to request transfer credit)
- ☐ Take the ACCUPLACER® college placement test or provide a copy of ASSET, COMPASS, ACCUPLACER®, SAT, or ACT scores (other assessments may be acceptable; please contact the Admissions Office for more information)

Acceptance into the college does not guarantee selection into a desired health science program. The **competitive selection process** is a separate process that must be completed to gain entry into the student's program or cohort.

*For complete information about CGTC's Admissions requirements, please visit <https://www.centralgatech.edu/admissions-financial-aid>.

COMPETITIVE SELECTION PROCESS

All steps below must be completed before the competitive selection deadline published for each program. Current dates are listed on the **Important Dates, Deadlines, and Information** section of this booklet. To be considered for selection for a seat in a competitive health science program, a student must:

- ☐ **Successfully complete all required courses for selection** (see the *Selection Requirements* section in this booklet for information specific to each program).
- ☐ **Take the required entrance test for the program, *Test of Essential Academic Skills (TEAS)*.**
- ☐ When you are ready to compete for a seat in your desired program cohort, **submit a *Competitive Health Selection* form** (the form is available online in the forms section of the **Student Portal**; go to portal.centralgatech.edu, click **Competitive Health Selection**, complete the form, and click the **Submit Application** button once). A confirmation will be sent to your student email address. If you do not have access to the Student Portal, you must request a paper version of the form in the Admissions Office.
- ☐ Once selections are made, all applicants will be notified through the email account provided on the Competitive Health form of their acceptance or denial for admission into a competitive program (see the *Important Dates, Deadlines, and Information* section of this booklet).

Questions?

For questions about the admissions process for CGTC, please contact the Admissions Office at (478) 988-6800 or admissionsoffice@centralgatech.edu.

For questions about the competitive selections process, please contact the appropriate program advisor (contact information for each program is available in the Selection Requirements section). You can also contact the Health Sciences Office at healthselection@centralgatech.edu or call (478) 757-2506.

The Competitive Selection Process

Space for each program cohort is limited by the number of available clinical slots and/or the requirements of the program accrediting agency. Therefore, the number of students accepted for each program can vary by semester. Only students who meet the minimum eligibility requirements as outlined in this booklet will be considered for selection. Competitive health selection trend data, including the average number of students selected to each program, highest and lowest test scores and GPAs, and highest and lowest total selection scores for past cohorts is available online at www.centralgatech.edu (click **Admissions & Financial Aid**, click **Competitive Selection**, then click **Health Science Programs Competitive Selections Score Trends**).

Selection Period

To determine when the selection process will take place for each program, refer to the *Important Dates, Deadlines, and Information* page.

Age

Each program has a minimum age requirement (refer to the minimum age column in the *Selection Requirements* section of this booklet). The student can be admitted to the college, take core classes, and participate in the selection process prior to meeting the age requirement. However, the student must meet the minimum age no later than the first day of the first semester when the selected program cohort begins.

Courses for Selection

Each program has required classes that must be completed in order for a student to compete for selection (refer to the *Selection Requirements* section). Courses may be in progress at the selection deadline for students enrolled at CGTC, but must be successfully completed at the end of the semester. For students who will transfer credit in, all final transcripts must be received by the selection deadline. Selection courses must be completed with a grade of C or higher to be considered for a competitive health selection program.

Students requesting course substitutions must contact their advisor. Course substitutions are submitted by advisors at the request of the student and must be submitted on or before the competitive selection deadline for each program. For questions related to course substitutions, please contact Jackie Turner at (478) 445-2330 or email jturner@centralgatech.edu.

Only the selection courses listed for each program will be calculated in the selection grade point average (GPA). Other courses taken will not be calculated in the selection GPA. All programs require courses beyond those calculated for selection. For full program curriculum requirements, please visit www.centralgatech.edu/catalog.

Minimum requirements for the selection courses:

Expiration of Grades:*

- General education core courses, such as English and psychology, do not expire.
- Math and science courses evaluated for selection (refer to page 7) expire after five years. If the last attempt is outside the five-year period, the student must re-take the course(s) to be eligible for selection. (For Example: MATH 11XX taken any time in 2020 will expire December 31, 2025).

Multiple Attempts:

- Multiple attempts at a course can affect financial aid; students should contact the Financial Aid office before re-taking a course.

- An average of the two most recent attempts for each course for selection within five years will be used to calculate the selection GPA.
- For courses that do not expire, grades older than five years will not be calculated in the selection GPA, unless it is the student's only attempt. In the case of multiple attempts (all older than five years), the highest grade of the attempts will be calculated.

Transfer Credit:

- For courses completed at an institution other than CGTC, transcripts will be evaluated and grades from applicable coursework will be calculated in the selection GPA in accordance with the criteria in this booklet.
- Transcripts must be received by the Registrar's Office before the published competitive selection deadline for each program in order to be considered for selection (refer to the *Important Dates, Deadlines, and Information* section).

Entrance Test for Selection

Students competing for selection must complete the Test of Essential Academic Skills (TEAS) requirement by the established selection deadline. Please refer to the *Important Dates, Deadlines, and Information* section of this booklet for detailed information.

The TEAS can be taken at the CGTC Testing Center on any campus with picture ID. Seat availability may be limited for dates closer to the competitive selection deadline; please plan accordingly. For information on registering for the TEAS, please go to <https://www.centralgatech.edu/testingcenter>. The student may choose to take the TEAS at another testing center. Transfer of TEAS scores from other testing sites is not automatic. Any student who takes the TEAS at a testing center other than CGTC, must request their scores be sent to CGTC.

Selection test requirements for health programs:

- Students are limited to two attempts a year within the published competitive selection period (June 2, 2021 - June 1, 2022). Students who have taken the entrance test prior to the published selection period are not required to retake the test unless an updated version of the test has been released. The two most recent scores will be used in the competitive selection calculation.
- The test must be taken before the deadline of the published competitive selection submission period for each program listed in the *Important Dates, Deadlines, and Information* section of this booklet in order to be considered for selection.

Test of Essential Academic Skills (TEAS) Exam

- The TEAS test requires a fee. For information related to testing fees, please check the CGTC website for the latest information.
- CGTC recommends that students complete BIOL 2113 prior to taking the TEAS exam.
- Only test scores from the current version of the TEAS exam will be accepted.
- The TEAS can be taken at any time during the normal operating hours of the Testing Center (a complete schedule is available at www.centralgatech.edu/testingcenter).
- Students must request that their TEAS scores be sent to CGTC.

Health Selection Forms

Students competing for selection must submit a *Competitive Health Selection* form by the published deadline.

- Current students must submit this form online through the Student Portal (<https://portal.centralgatech.edu>). Once submitted, a confirmation email will be sent to the student's CGTC email address.
- Students who wish to compete, but are not currently registered for classes at CGTC, must request a *Competitive Health Selection* form from the Health Sciences Office at healthselection@centralgatech.edu.

A *Competitive Health Selection* form must be submitted for each program for which the student wishes to compete. If a student is not selected and would like to compete in the next selection cycle, the student must submit a new *Competitive Health Selection* form each time. It is the student's responsibility to ensure that all required course grades and time frames are still applicable.

Criteria

CGTC uses an objective, quantitative process to score all eligible candidates for selection into competitive health science programs. Selection into each program is based on a rank-order calculation where the student with the highest total score is selected first, and remaining seats are filled according to rank order. Upon successful completion of all requirements, students will be considered for selection based on the following criteria:

Formula

$$\begin{array}{r} \text{(GPA of Selection Courses} \times 100) \\ + \text{ Highest TEAS Test Score} \\ \hline \text{Total Rank-Order Calculation Score} \end{array}$$

Tiebreaker

In the case of a tie in the rank-order calculation score, the student with the highest test score average will be selected.

Notification of Selection

For associate degree programs, students will receive selection notifications one semester prior to the cohort start semester (ex: if the cohort begins spring 2022, notifications will be sent before fall 2021). For diploma programs, notifications will be sent prior to the start date of the semester that the selected cohort begins (ex: if the cohort begins spring 2022, notifications will be sent after fall 2021).

Students who apply for selection will receive an email at their CGTC student email address* with more detailed information regarding notification before the selection process begins. Students should ensure that contact information is up-to-date each semester in BannerWeb. **When notified, students will have 24 hours to respond to the offer for selection. Students must confirm acceptance of the seat in order to be added to the program.** If a student does not accept, the seat will be offered to the next student in the rank order calculation.

Once selection is confirmed, students will receive further information regarding orientation and advisement for registration. Once a student begins their cohort, they will not be considered for any other competitive programs unless they are in their last semester prior to graduation.

*(*During the selection period, emails will be sent to CGTC student email accounts. Students should check this email account frequently and ensure that the email inbox is not full and the deleted items folder is emptied regularly. Refer to the Student Technology Guide at <https://www.centralgatech.edu/studenttech> for information on how to access your CGTC student email. Any student who completes the paper version of the competitive selection form will be notified at the email provided on the paper version of the competitive health selection form.)*

Other Criteria

Students who are selected for CGTC's health programs must submit to a background check and a drug screen prior to enrollment in an occupational/clinical course. Students who re-enter a program must fulfill this requirement again upon re-entry to the program. A student who has been convicted of a felony or misdemeanor may be selected for a health sciences program; however, a conviction may prevent the student from being accepted into a clinical training site and/or taking certification/registry/licensure exams. Additionally, students who test positive for drugs or illegal/controlled substances may be precluded from clinical participation.

CGTC cannot guarantee licensure to any graduate, or the ability to participate in clinical rotations. Clinical slots are controlled solely by the clinical site. If you are unsure about your ability to participate, please contact your program advisor.

Students are expected to uphold professional and ethical standards at all times in accordance with CGTC's Code of Conduct. The full Code of Conduct can be accessed online in the academic catalog (www.centralgatech.edu/catalog).

Frequently Asked Questions

Q. How many programs can I compete for each semester?

A. You can compete for as many programs as you would like, as long as you have met the selection requirements for each program. You can also opt to compete for the same program at multiple campuses.

Q. How much should I expect to spend on books and supplies in my first semester?

A. Book costs vary by program; however, you should expect to spend the largest amount of money on books within the first semester. Often, books will be used for multiple classes throughout the duration of the program. Check with the program advisor for more specific information. Students should also be prepared for other out-of-pocket expenses including background check fees, uniforms, licensure testing, etc. A good faith estimate of costs associated with each program can be found on the *Selection Requirements* section in this booklet.

Q. How do I know which program may be best for me?

A. If you are unsure of exactly which health science program you would like to pursue, visit CGTC's Career Services Office, where career advisors can provide you information on areas that interest you and perform a career assessment that can help you decide. You can also speak with the various health program advisors to help inform your decision.

Selection Requirements

Complete program curriculum information is available online (www.centralgatech.edu/catalog).

*All admissions requirements and competitive selection process requirements must be completed before the published date for each program. If the deadline falls mid-semester, **students currently enrolled at CGTC** and taking one or more courses evaluated for selection have until the end of that semester to complete those courses. Students requesting transfer credit must ensure that final transcripts have been received by the Office of the Registrar on or before the published competitive selection deadline for each program. Students requesting course substitutions must submit the request to their advisor on or before the competitive selection deadline for each program. If the published deadline falls on a weekend, students are responsible for submitting all documentation by close of business on the preceding work day, or submitting electronically online.

**Includes books, supplies, uniforms, testing fees, background check fees, and other associated out-of-pocket costs for the duration of the program.
