Logistics Management Specialist (LM21)

The Logistics Management Specialist TCC program is a sequence of courses that is designed to prepare students for employment in the field of business logistics. The program focuses on specific occupational courses in the area of logistics that provide an overview of the process from product idea conception to product delivery to the consumer.

Supply Chain Specialist (SCS1)

The Supply Chain Specialist certificate program provides foundational knowledge of activities associated with getting products from their point of origin to the consumer. Topics include basic fundamentals of supply chain management, including a general knowledge of current management practices in logistics management, E-Commerce (EC), global supply chains, logistics, and transportation.
