Programmatic Accreditations

JRCERT – Joint Review Committee on Education in Radiologic Technology

Macon: Ms. Cobb received notification regarding the interim report due in February 2025 and has begun work on that report. The program is tentatively scheduled for consideration by the Board at the May 2025 meeting.

ASHP – American Society of Health System Pharmacists

No updates to report.

CODA – Commission on Dental Accreditation

The Commission on Dental Accreditation (CODA) will hold a virtual **Hearing on Standards on Thursday, October 10, 2024**. All Standards currently proposed for revision will be covered in the Hearing.

ASE – Automobile Service Excellence

The Milledgeville on-site visit date has been confirmed for October 1, 2024. The AUTT team and the IE team will do a walkthrough of the Warner Robins campus on September 13, 2024; a date for the Warner Robins campus has not been confirmed yet.

ACEN – Accreditation Commission for Education in Nursing

The ACEN accreditation report was submitted. Dr. Wynne, the nursing program faculty, and the Institutional Effectiveness team are preparing for the ACEN site visit scheduled for September 24-26, 2024.

CAPTE – Commission on Accreditation in Physical Therapy Education

No updates to report.

JRC-CVT – Joint Review Committee on Education in Cardiovascular Technology

Ms. Farris submitted the self-study. Both CAVT and ECHO teams are working with the IE team to prepare for the October 25, 2024 site visit.

ARC-STSA – Accreditation Review Council on Education in Surgical Technology and Surgical Assisting

Ms. Wells, Program Chair, has submitted the annual report.

General Information

Cybersecurity Club:

This semester, the Cybersecurity Club will be engaging in community outreach by visiting assisted living facilities in Macon and Warner Robins. Our goal is to educate senior citizens on how to safeguard their digital devices and online activities.

The Cybersecurity Club was established in August 2022 and currently has 35 active members managed by an Officer Board consisting of a President, Vice President, Secretary, and Treasurer. The club meets monthly in person with a webex option for those who may not be able to travel to the Macon or Warner Robins campuses.

The Cybersecurity Club is open to all students, regardless of major, and is entirely student-led. Membership is free and offers an excellent opportunity to explore IT and cybersecurity beyond the classroom. Members have access to conferences and competitions that facilitate networking with peers and industry professionals, as well as potential internships. Although club membership is not reflected on the student's transcript, it can be highlighted on their resume. Additionally, the club host guest speakers who provide valuable insights into IT and cybersecurity.

AI Tutor:

CGTC was awarded funding through a Strengthening Community College (SCC) grant as a sub-award to support capacity building activities that enhance course offerings and instruction through the introduction of advance learning technologies, with a specific focus on programs related to IT, healthcare and manufacturing. One of the purchases is AI Tutor. AI Tutor is based on generative AI language models. It is designed as a teaching and learning tool – students will learn the in-demand skill of working with AI while also getting help with academic coursework. The AI Tutor can explain math, science, English, and other core subjects 24/7. The platform is monitored by ASC staff to ensure academic integrity. Student inputs are secure – it is a safe and effective sandbox for exploring this emerging technology.

The preliminary stats pulled yesterday indicate the #1 topic requested is math. Most of the usage is during the week with 168 students requesting services making 2200 queries.

AED Success Story: Mahdiyah Wardi

Mahdiyah Wardi is grateful for the CGTC Adult Education Program, where her excellent instructor provided outstanding guidance and support. Due to personal challenges, there were moments of doubt and frustration along the way, but I refused to give up. Certain subjects, such as Math, seemed daunting at times, which caused me to struggle with self-doubt. However, my teacher made sure that I balanced my studies with self-care. This helped her to stay focused on her goal of creating a better future for herself. With unwavering perseverance, she poured herself into her studies. She spent countless hours working on textbooks, practicing math problems, and mastering language arts concepts. Each small victory fueled her determination.

After spending about two months in the program, to her surprise, the time for testing came around quickly. She felt both nervous and excited. This would be the actual demonstration of her hard work and dedication. She stepped into the testing center with a deep breath and a silent prayer, ready to give it her all. With each test she passed, she felt a massive sense of relief. Her mom's constant uplifting and her teacher's motivation kept her moving forward. When she received her final results, she was elated! Against all odds, she had passed the HISET test! Finally equipped with her high school credentials, new opportunities can now expand, and doors that had once been closed can now open wide. She can now pursue her goals of success and explore her dreams.

Facilities and Satellite Operations Update

Report Date: September 6, 2024

Meeting Date: September 11, 2024

Prepared By: Mr. Jeff Scruggs, Executive Vice President

Facilities Projects

- Phase IV (of four) of WR “C” is finished and the final payment request has been received.
- The Milledgeville EV/Mechatronics project is moving quickly. The contracted design professional is Azar Walsh and the Sheridan Construction is the construction manager at risk. Design development/programming is complete as well as demolition. The guaranteed maximum price estimate is within the stated cost limitation. Construction documents have been sent to the Georgia State Finance and Investment Commission (GSFIC) Design Review Group (DRG) and the State Fire Marshal for approval. Once approval is received, construction can commence.
- Atrium Health/Sonny Watson light project is scheduled to be complete by September 20th.
- The FY 25 Capital Outlay project (\$17.55 MM) for the renovation of Macon Trade and Industry buildings is scheduled to be advertised this month. It appears likely that the procurement for the design professional and as well as the construction manager will occur simultaneously. This is a similar method used for the Milledgeville EV project. This method saves time and money.
- The FY26 capital outlay request has been forwarded to TCSG and is under review. The request is for funding to make significant infrastructure improvements:
 - Major HVAC components and controls
 - Roofs
 - Parking lots
 - Fire Alarm system upgrades
 - Ground water intrusion remediation
 - These projects are internally estimated at \$6.7MM plus escalation

Information Technology, Instructional Technology, and Cyber Security Update

Report Date: September 5, 2024

Meeting Date: September 11, 2024

Prepared By: Dr. Brian Snelgrove, Chief Information Officer

General Information

Microsoft began decommissioning the tools we have been using to create student accounts. We have developed a new set of processes to create student accounts, put the users in the appropriate security and distribution groups, apply Microsoft 365 licenses, and notify users of account creation. The new processes are more efficient than the old processes, and students should get faster access to their accounts.

Cyber Security

On August 16th, the IT department was notified of a misconfigured SharePoint site set up by a former employee. The misconfiguration allowed unauthorized users of our organization, specifically students, to access sensitive information. Within two hours of the notification, the SharePoint site was reconfigured, all data was secured, and we began investigating. Only one SharePoint site was impacted, and the unauthorized access involved no other systems. We are working with the Technical College System of Georgia and Mullen Coughlin law firm to ensure the proper notifications are sent to those impacted and the appropriate agencies (Georgia Technology Authority, Department of Administrative Services, Federal Student Aid, etc.).

A new Personally Identifiable Information procedure has been developed and published on the College's website. The procedure is also included in the board packet for review and to answer any questions related to it. This new policy may increase the workload of the CGTC IT department, but following it will reduce the risk of another event due to a misconfiguration.

Personally Identifiable Information Protection and Storage Procedure

1. Overview

Controlling access to records that contain Personally Identifiable Information (PII) data is essential to maintaining the confidentiality and integrity of the data belonging to students, staff, and faculty.

2. Purpose

This procedure outlines the standards for protecting and storing PII to safeguard it from unauthorized access and disclosure. The goal is to ensure compliance with applicable laws and regulations while protecting individuals' privacy rights.

3. Scope

This procedure applies to all Central Georgia Technical College (CGTC) employees, contractors, and third-party users accessing CGTC records that contain PII data. Additionally, this policy applies to all devices, services, and methods used to store, access, and manipulate PII data maintained by CGTC.

4. Definitions

a. Personally Identifiable Information (PII)

- i. Any information that can be used to identify an individual, including but not limited to names, addresses, Social Security numbers, financial information, and health records.
- ii. Refer to TCSG State Board Procedure 6.3.1p2.VI.C for the definition of Public directory information. Anything not explicitly defined should be considered protected personally identifiable information (PII).

5. Standard

a. Identification of PII Records

- i. Identify and classify records that contain PII.

b. Storage of PII Records

- i. Store PII records only in authorized locations.
 1. Authorized locations are the following:
 - a. Secure locations (e.g., vault, lockbox, etc.) for analog physical media (e.g., paper printouts, copies, facsimiles, etc.).
 - b. Local (CGTC-owned and managed) and cloud-based storage systems approved, configured, and managed by the CGTC Information Technology (IT) Department.
 - c. Approved CGTC-owned external storage devices employing modern and appropriate encryption techniques. Each device must be approved by the CGTC CIO, or designee, in writing before its use.

- d. CGTC-Owned devices, mobile and stationary, employing modern and appropriate encryption techniques and secure access methods (e.g., passwords, pins, bio-authentication, etc.).
 - 2. Non-Authorized storage locations
 - a. Any location not listed in this policy.
 - ii. Ensure that only authorized personnel can access storage locations where PII records are stored.
 - iii. If data is stored in unapproved locations, it must be moved to an approved location immediately and securely deleted from the unapproved storage location. The CGTC CIO, or designee, must be notified in writing when an unapproved location has been identified and the data has been moved to an approved location.
 - c. **Sharing PII**
 - i. PII data shared with authorized individuals must be secured in transit and at rest.
 - 1. Physical media (e.g., paper records, printed documents, etc.) must be securely stored in an approved location and remain secure when transported from one location to another (e.g., lockbox, safe, etc.).
 - 2. Electronic communications containing PII must be encrypted.
 - 3. Links to electronic storage containing PII must use modern encryption techniques (e.g., HTTPS, TLS, etc.).
 - 4. Links to storage containing PII must only be sent to authorized individuals and created so only authorized individuals can use them.
 - d. **Students, Student Workers, or Third-Party Access to PII Storage Locations**
 - i. Students not currently employed by CGTC shall not be given access to non-directory information.
 - ii. Student workers who need access to non-directory information must complete the same onboarding process as employees.
 - iii. Third-party contractors who need access to PII must complete vendor certification requirements, and you must notify the CGTC CIO.
 - 1. Contracts must contain appropriate data security requirements
 - 2. Third-party contractors must provide periodic reassessments and audits of their organizational security
 - e. **Training and Awareness**
 - i. Provide regular training to employees on the importance of secure storage of PII records.
 - ii. Include information on identifying PII, secure storage, and authorized storage locations in the training.
 - iii. Ensure employees understand their roles and responsibilities in protecting PII.
 - f. **Monitoring and Compliance**
 - i. Conduct periodic audits to ensure compliance with the policy.
 - ii. Monitor the permissions of storage locations to verify that all PII records are stored securely.
 - iii. Document audit findings and recommend corrective actions for any non-compliance issues.

g. Data Retention

- i. PII should only be retained for as long as necessary to fulfill the purposes for which it was collected or as required by law.
- ii. Regular audits of PII data stores must be conducted to ensure compliance with retention policies.

h. Data Disposal

- i. When no longer needed, media containing records with PII must be appropriately disposed of using industry-standard processes and techniques (e.g., physical destruction, secure deletion, data overwriting processes, etc.).
- ii. Data destruction processes must be documented and verified.

i. Incident Response

- i. Any suspected or confirmed breach of PII must be reported immediately to the Information Security Officer (ISO), CIO, or their designee.
- ii. The CGTC CIO or ISO will immediately begin an investigation and document its findings, remediation actions, etc.
- iii. The CGTC CIO or ISO will consult with the Technical College System of Georgia and follow its recommendations.

6. Standards Compliance

a. Compliance Measurement

- i. The CGTC IT Department will verify compliance with this policy through various methods, including, but not limited to, business tool reports, internal and external audits, and audit log reviews.

b. Exceptions

- i. The CGTC CIO or their designee must approve any exception to the policy in writing in advance.

c. Non-Compliance

- i. An employee who has violated this policy may be subject to disciplinary action up to immediate termination.
- ii. An employee may be personally and criminally liable for knowingly violating this policy.

7. Related Standards, Policies, and Processes

- a. Please review the following policies for details of protecting information and acceptable use of Central Georgia Technical College's network:
 - i. TCSG State Board Procedure 3.3.4p *Acceptable Computer and Internet Use Acceptable Use Policy*
 - ii. TCSG State Board Procedure 3.3.4p1a1 *TCSG Information Security Standards*
 - iii. TCSG State Board Procedure 6.3.1p2
 - iv. Family Educational Rights and Privacy Act
 - v. Gramm-Leach-Bliley Act
 - vi. Health Insurance Portability and Accountability Act

Institutional Effectiveness Update

CGTC Board of Directors Meeting

Report Date: September 4, 2024

Meeting Date: September 11, 2024

Prepared By: Ms. Deborah Burks, Vice President for Institutional Effectiveness

Action Item

CGTC mission and vision review:

The mission of CGTC was reviewed and remains as published for FY2025.

Central Georgia Technical College, a unit of the Technical College System of Georgia, offers credit instruction, adult education, and customized business and industry training through traditional and distance education delivery designed to promote community and workforce development.

The College has not changed its vision.

It is the vision of Central Georgia Technical College to lead a system of technical colleges in providing technical education, adult education, and customized business and industry training to meet the workforce needs of the future, focusing on preparation for emerging and transforming careers. CGTC will continuously infuse innovative technology and business practices into occupational and adult education, economic development workforce services, and student support services to remain responsive to the evolving needs of the communities we serve.

The College's challenging, personalized, web enhanced learning environment will continue to provide rigorous training opportunities of sound quality resulting in a well-qualified, highly trained, knowledgeable workforce.

Information Items

Institutional Accreditation Actions - SACSCOC

- Submission to SACSCOC: Off-Campus Instructional Site (OCIS) Prospectus developed for Dooly State Prison to offer the Warehouse and Distribution Technician Technical Certificate of Credit (TCC) an already approved program at a new location. A Prospectus is required to accompany the prior request for the Prison Education Program (PEP) for the site where Pell is offered to justice-impacted individuals.

Grants

| Total Enrollees | 105 | 57 | 0 | 0 | 162 |

Outreach

WIOA Career Advisors attend college and community events as a means of conducting outreach. Attendance at the following events is scheduled.

- September 5th – Career Fair, VECTR Center
- September 12th – Job Fair & Resource Expo, CGTC Macon Campus
- September 26th – Fall Career & Resource Expo, Anderson Conference Center
- October 24th – Surgical Technology Orientation, CGTC Warner Robins Campus

Additional information about the WIOA program can be found by visiting the CGTC public web and accessing the WIOA page at www.centralgatech.edu/wioa.

College-wide Professional Development

Addressing special populations – non-traditional category

- Non-traditional programs are defined as those programs enrolling genders that are not represented in high numbers in the field. A list of non-traditional students is maintained on the Special Populations web page. Students are encouraged to review and consider enrollment into these programs to improve saturation of the under-represented gender. The College offers student supports to assist the under-represented gender in being retained to graduation.
- Faculty participate in professional development sessions covering how to best serve under-represented gender students:
 - a. Session One, **Understanding Our Students**: Topics include recognizing that students are different, understanding the implications of being students in non-traditional programs, first generation college students, students from poverty, and others.
 - b. Session Two, **Understanding Ourselves**: Faculty are no different than others and we come with biases that we may or may not recognize about ourselves. Topics include micro-messaging, bias, and gender biases in instructional materials.
 - c. Session Three, **The Classroom**: This two-part workshop will provide tips and suggestions for what can be done in the classroom to promote positive student experiences and subsequently student

retention and success. Topics include using affirmations and praise, and warming a chilly learning environment.

- d. Session Four, **The Office**: Research shows us that relationships between college students and college faculty or staff is critical to their success; this workshop will provide advisement strategies and relationship-building techniques for faculty. Topics include real student advisement, positive influences of advisers on advisees, and building student relationships and a connection with the college.
- A series of Program Chair Needs Assessments were conducted which lead to the development and deployment of fifteen-minute training sessions (Lunch and Learn) on Program Chair Fundamentals. Although the sessions are open to all, the sessions are designed to help new Program Chairs perfect their role.

MISSION STATEMENT
