Institutionally Developed

Proposed Date of Implementation: Fall Semester 202612

Location: Warner Robins, Macon, and Milledgeville Campuses

Statement of Need for Program in the Service Area:

Program Description: The (AAS-AHP) Associate of Applied Science Degree provides students with the flexibility to customize their curriculum to meet their academic and career goals in the healthcare sector. This program requires the completion of a range of 61- 64 semester credit hours, including 15 hours of general education prerequisites and 49 hours dedicated to healthcare-related courses. These specialized areas of study encompass comprehensive healthcare programs, emphasizing both theoretical knowledge and practical skills essential for entering the healthcare workforce successfully. Upon graduation, students will possess a strong foundation and relevant skills necessary to excel in various healthcare roles. Through close collaboration with a faculty advisor, students can strategically choose courses from specific concentrations that align with their career aspirations in the healthcare field.

General Information

State Board Approves A.S. Degrees for CGTC

The TCSG State Board met on Thursday, August 7, 2025 at Central Georgia Technical College. The Board approved four Associate of Science degrees submitted by CGTC: A.S. in Education; A.S. in Social Work; A.S. in Psychology; and A.S. in Criminal Justice. Academic Affairs will finalize articulation agreements for all four programs with the Academic Affairs team at Middle Georgia State University this month with a signing between Presidents and Institutions to follow.

CGTC Cybersecurity Club Student Wins 1st Place at SkillsUSA Nationals – Kaleb Brown

Kaleb Brown, a Cybersecurity Club student, won 1st Place in Computer Programming at the SkillsUSA National Competition held in June! This was a huge national-level achievement and a reflection of the hard work, talent, and dedication Kaleb has put into his craft. He represented our club and school with excellence, and we couldn't be prouder. A big thank-you also goes out to Mr. Burrows and Dr. Opoku-Fiango for supporting Kaleb throughout the week-long event and making sure he had everything he needed to compete and succeed.

Federal Aviation Administration Visit

The visit with the FAA went extremely well. The inspectors were highly complementary of the work the AVMT team has done and they officially gave their approval for the program to move forward with launching our first Aviation Maintenance course with an online presence. Our FAA administrators confirmed Central Georgia Technical College will be the first TCSG institution in the state to establish an online footprint within an AVMT program. It was also mentioned during the visit that Middle Georgia State University does not currently offer

distance learning options in their AVMT program. We are awaiting final approvals from the Distance Learning department to ensure we can move forward in time for the fall semester. With that support, we'll be ready to launch this course and begin paving the way for more flexible and accessible learning opportunities in our program. A special thanks to Brian Wynne, General Education Math instructor, for assisting the AVMT team with building the MyOpenMath platform for the class.

AED Success Story: Derrick Berry

Derrick Berry always believed in second chances and was determined to make the most of himself. After facing challenges in his past, he found himself at a crossroads: he lacked a high school diploma, had limited job prospects, and a strong desire to rebuild his life. Rather than letting his circumstances define him, Derrick took action. He enrolled in the CGTC Adult Education program to complete his education while also participating in an Integrated Education and Training (IET) class designed to help individuals transition into the workforce. Despite the difficulties of balancing multiple responsibilities, Derrick remained committed to his goals.

With his certification in hand, Derrick wasted no time applying for jobs. Within weeks, he secured a full-time position at a local logistics company. He is now employed at Encore Plastic Industries, where he works as a Picker/Packer, with hopes of soon moving into a position as a certified forklift operator while pursuing his high school equivalency. His hard work paid off when he successfully earned his forklift certification—a credential that distinguishes him from other job seekers. We are incredibly proud of Derrick and look forward to his bright future.

Facilities and Satellite Operations Update

Report Date: August 11, 2025

Meeting Date: August 13, 2025

Prepared By: Mr. Jeff Scruggs, Executive Vice President

Facilities Projects

- Milledgeville EV and Mechatronics Labs Renovation is complete, and the State Fire Marshal has issued a Certificate of Occupancy
- The FY 25 Capital Outlay project (renovation of several Macon campus buildings) project is in the construction documents production phase. The initial estimate by the construction manager has (not unexpectedly) driven some modification to the initial schematic design to bring the project cost within the Guaranteed Maximum Price (GMP).
- The FY27 capital outlay requests are now under consideration by the Commissioner and State Board. The requests are to renovate the remaining portions of Building A in Milledgeville (9.855 MM) and renovate Buildings A and B in Warner Robins (22.87 MM).
- As previously mentioned, CGTC's FY27 System-Wide Critical Infrastructure supplemental Major Repair and Renovation (MRR) funds request has also been submitted to TCSG. The request is for funding (10.5MM) to make significant infrastructure improvements.
- The College is developing a minor project to build out and equip a Welding lab/program by renovating existing space on the Milledgeville campus. The project would be funded by using residual funds from the WAM (EV/Mechatronics) project (~800 K).

Information Technology, Instructional Technology, and Cyber Security Update

Report Date: August 8, 2025

Meeting Date: August 13, 2025

Prepared By: Dr. Brian Snelgrove, Chief Information Officer

General Information

Video Conferencing Equipment

Video conferencing equipment in the Macon, Milledgeville, and Warner Robins Watson board rooms has been upgraded. The new equipment has higher resolution cameras and more sensitive microphones, providing a better experience for remote meeting guests.

Computer Replacement

In preparation for Windows 10 reaching end of life in October, the college has ordered approximately 550 new computers. The new computers have started arriving, and we are working with departments to schedule their installation. Our initial focus is on Academic Affairs classrooms to support student learning. The upgrade and replacement plan will impact every campus and location in some way.

Webex Calling (office/desk phones)

The college is moving forward with a transition from a self-hosted telephone system to Webex Calling. The transition will provide the most secure system possible, additional functionality for end users, and ensure compliance with E911 regulations.

Cyber Security

Phishing Attacks

Many government agencies have experienced an increase in phishing attacks. CGTC is not immune to these attacks; we have noticed a dramatic increase in the attacks over the past few weeks. We are constantly tuning our filtering software to block phishing attacks and minimize the impact. We are also removing malicious messages from our system as they are identified. Over two days (July 30th and August 1st), we removed well over 10,000 malicious messages from our system.

Milledgeville Network

All of the network switches on the Milledgeville campus have been upgraded with new hardware. Many of the switches, while still functional, were “end of life” and were no longer supported by the manufacturer. The new hardware provides better network performance, stability, and an improved experience for our faculty, staff, and students while ensuring security and feature updates are available.

STUDENT SUPPORTS

WIOA (Workforce Innovation and Opportunity Act)

Central Georgia Technical College has been awarded the WIOA Career and Case Management Services Contract for Fiscal Year 2026/Program Year 2025 by WorkSource Middle Georgia on behalf of the Middle Georgia Workforce Development Board.

The WIOA contract is coordinated by the Vice President for Institutional Effectiveness, Dr. Deborah Burks, with program operational and compliance management coordinated by the Director of Research and Compliance for Institutional Effectiveness, Mrs. Melodi Robinson. The college employs WIOA Career Advisors to work directly with students to prepare and submit eligibility applications and conduct follow-up. WIOA Career Advisors conduct career placement activities for participants enrolled in an eligible activity such as being enrolled in a WIOA approved occupational program, high school equivalency or high school diploma. The contract denotes that the college must serve a minimum of 75 participants falling under the categories of Out of School Youth, Adult, and Dislocated Workers.

WIOA Outreach:

WIOA Career Advisors attend college and community events as a means of conducting outreach. Attendance at the following events is scheduled. The team is actively seeking community outreach activities to inform potential students about WIOA services at CGTC.

- August 4th and 5th – Back to School Bash, Pulaski County Schools
- August 8th - Orthopedic Technology Orientation, CGTC Macon Campus
- August 8th - CGTC Fall Orientation, CGTC Warner Robins Campus
- August 9th – Back to School Bash, South Bibb Recreation Center
- August 9th – Family Resource Fair, Milledgeville

Regional STEM/Allied Health Academy

Purpose

The Regional STEM/Allied Health Academy represents a partnership between the Houston County School District (HCSD), Central Georgia Technical College (CGTC), and partnering central Georgia Healthcare Systems, aimed at addressing the critical shortage of healthcare workers in the middle Georgia region. By integrating the Allied Health Alliance into the Academy, we aim to provide students with hands-on, career-focused education in healthcare, ensuring

a robust pipeline of skilled workers to meet the region’s growing needs. This regional program will also welcome students from outside Houston County, expanding its impact across the Middle Georgia area.

Partnership opportunity

- Bloomberg Philanthropies has launched a healthcare career-connected learning initiative
- Bloomberg’s initiative is focused on starting or enhancing multiple specialized healthcare high schools across the country to prepare students for middle-skill healthcare jobs that require less than a four-year degree
- Bloomberg’s model requires a commitment from healthcare systems, K-12 school districts, and post-secondary partners

Result

Well-trained students will enter the workforce to earn a family-sustaining wage and continue to climb career ladders to success.

Proposed Programs – STEM/Healthcare Academy

CGTC’s currently accredited programs that will expand to the STEM Academy:

- Licensed Practical Nursing (LPN)
- Cardiovascular Technology
- Hemodialysis
- Medical Assisting
- Medical Laboratory Technology
- Orthopedic Technology
- Pharmacy Technology
- Paramedic/EMT
- Polysomnography
- Radiologic Technology
- Surgical Technology

Current Dual Enrollment Programs

- Patient Care/Nurse Aide (CNA)
- Emergency Medical Responder

New Proposed Programs

- Diagnostic Imaging/Ultrasound Technology
- Respiratory Therapy Technology

Planning Meeting Overview

On July 7th a meeting was held with Altman + Barrett Architects, Houston County Board of Education and members of Central Georgia Technical College, to discuss design, equipment, programs and timelines pertaining to Regional STEM/ Allied Health Academy, attendees included:

STEM Academy Partnership

- Goals were established to ensure all programs are accurately represented.
- The specific needs for each program were discussed for supplies, equipment, and locations.
- Clarifications were mentioned making sure the program aligns with the commitments made to potential donors and partners.
- To maximize the use of spaces, block scheduling for classes should be considered.
- The laboratory classroom size will allow 24-28 students in 800 sq. Feet.

Sharing Spaces

- Licensed Practical Nurse, Certified Nursing Assistant, and Medical Assistant programs will share space.
- Cardiovascular Technology, Radiologic Technology, and Diagnostic Imaging (including ultrasound) will share space.
- Surgical Technology and Orthopedic Technology will share space.
- Emergency Medical Technician, emergency medical response, respiratory therapy, and polysomnography will share space.
- Medical Laboratory Technology, Medical Assisting Technology, Phlebotomy, and Hemodialysis will share a space.
- Pharmacy Technology will be in one of the classrooms.
- There will be 5 labs instead of 4.

Cybersecurity Set Up

- Business & Computer Technologies preferred double monitors (considered size 20-24 width x 42-46 height) for effective teaching environment. (Enough monitors for 20-26 students)
- Cybersecurity will be the same as computer support.
- Supplies needed for the lab included large chairs, room décor for game design. (Dedicated server room with Apple Computers)
- Space sharing is acceptable for Cybersecurity, Information Support, Computer Program but it's preferred that they are separated.

Aerospace, Trade, & Industry

- Sufficient spacing is needed for compressed air, electrical power, table space, and equipment.
- Plans include two general science laboratory and two math classrooms.
- The science laboratories will be consistent with standard high school laboratories.
- The math classrooms will have thirty desks.

Strategic Initiatives Updates

- So far, Strategic Initiatives has received fifteen letters of support. Ten of the letters are from school districts and five are from healthcare partners.
- We have presented the Healthcare Partnership information to the following partners, Atrium Health, Piedmont, Emory Healthcare, Knight Foundation, and Warner Robins Rotary Club.
- The Strategic Initiatives Division's first site visit to Bloomberg Philanthropies grantees is scheduled for September 2025. Invitations to join the visit will be sent to school superintendents and healthcare professionals.
- On July 1, Dr. Tatrabian Jackson was transferred over to the Division of Strategic Initiatives. Dr. Jackson has worked at CGTC since November 2013. She has served in the role of Director for Satellite Operations for Baldwin, Crawford, Jones, and Monroe Counties. Most recently Dr. Jackson served as the Director for Advisement before joining the Strategic Initiatives division. We are excited to have her wealth of knowledge, passion, and enthusiasm within the department.

- We're also excited to announce that Tiana Wilson has joined the Office of Strategic Initiatives as Administrative Assistant to VP Dr. Scott. She joined the office on August 1. Tiana holds a Bachelor of Science in Business Administration, with a concentration in Marketing, from the University of Central Missouri. Originally from Maryland, she has called Georgia home for the past three years.

The Innovation in Education event, held on August 6 at 7:00 p.m. at Houston Lake Country Club in Perry, GA, was very well attended. This event provided Central Georgia Technical College with an opportunity to share exciting news and information about the revolutionary Regional STEM/Allied Health Academy with the counties we serve and other organizations across the state of Georgia. The College extended invitations far and wide, resulting in 286 confirmed RSVPs. The event was well represented by Jenny Kane, Bloomberg Philanthropies, and Saif Aslam, a current intern for Bloomberg Philanthropies from the Houston County area. Our healthcare partners expressed strong interest in advancing the project, with approximately eight individuals speaking throughout the evening about its value and the support their organizations will provide. Community partners, Board of Directors, and Board of Trustees demonstrated their commitment to Central Georgia Technical College and the broader community, with approximately twenty-five attendees participating. These individuals conveyed a clear understanding that their organizations will make informed decisions to support both the project and the students it will serve. Local, state, and federal elected officials offered their support not only during the event but also for the project itself. This group displayed a firm understanding that, when implemented as designed, the project will have a positive impact on the region. College partners and school superintendents from various districts expressed enthusiasm for the initiative and discussed ways to support both the project and the students it will benefit. An estimated fifteen individuals participated in discussions, attended the event, and contributed support letters. Representatives from Robins Air Force Base, 21st Century Partnership, and the Museum of Aviation also demonstrated leadership and support for the event. Leadership from the Technical College System of Georgia, the Senior Leadership Academy, and Presidents of fellow technical colleges showed solidarity in their pursuit of excellence in serving our communities. Participation from Central Georgia Technical College team members included individuals from various departments and divisions. Their efforts helped deliver an exquisite and informative event that reinforced our commitment to advancing and positively transforming the lives of the communities we serve. In total, about sixty dedicated team members from the College attended to share this vision with the community. We extend our sincere thanks to the sponsors and to Houston Lake Country Club for their support of this iconic event. Following the event, Senator Sam Nunn, his wife Colleen, and Jenny Kane from Bloomberg Philanthropies sent messages expressing their appreciation for the community's support and a successful event communicating the new project.
